EFHL League
UPDATE

To provide our membership an update on discussions between Hockey Edmonton and their interlock partners with respect to restructuring of the EFHL, SMHA has participated in several Joint Committee meetings.

Items discussed and agreed upon included:

Governance Recommendation – Removal of the EFHL from the authority of Hockey Edmonton, and replacing the voting structure with proportional representation of all participating associations

Membership -Inclusion of all existing EFHL associations with the addition of Fort Saskatchewan and Leduc. Proportional representation refers to all participants and not regional participants. This includes groups having separate society status such as SPS Fuzion.

Financial Transparency – Minor Hockey Week will now be considered optional. The EFHL will have full autonomy over league fees for the 2022-2023 season. It will be the task of the League Treasurer to determine the true cost of league operations throughout the season for presentation to the Board in advance of setting league fees for the 2022-2023 season.

Permits – League permits no longer required. This will be handled by SMHA in conjunction with Hockey Alberta.

The EFHL Board will have full autonomy over all league decisions.

What does this mean for SMHA?

- ✓ Opportunity to have a voice in league decision making
- ✓ Streamlining of administrative processes for teams
- ✓ Increased opportunity to evolve and enhance hockey programming

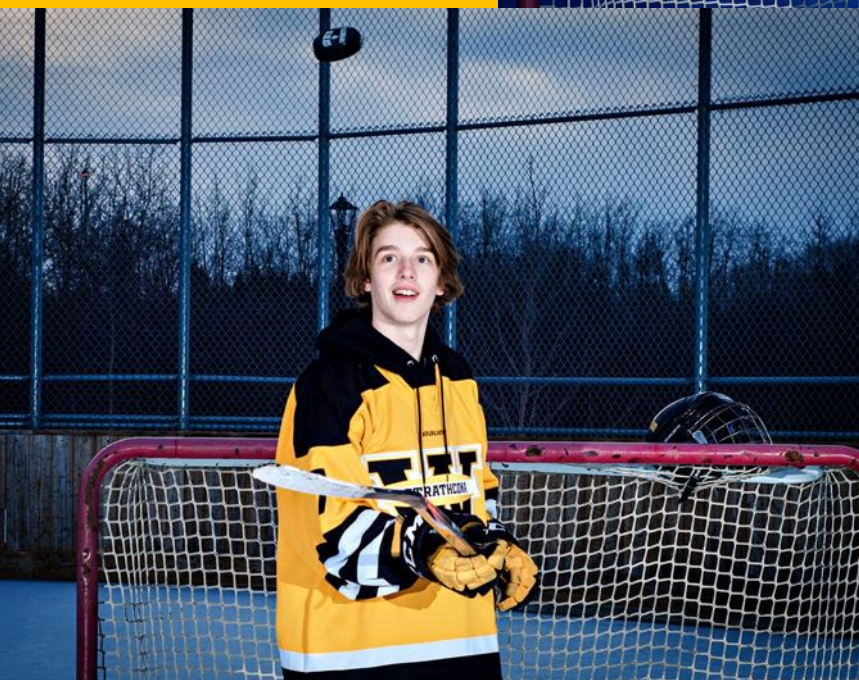

**We have 24 U-18 players
graduating this season.
We wish these athletes all
the best in their future
endeavors and hope our
great game of hockey has
provided life-long
memories, opportunity and
friendships!!**
